

2007-2008 EQUIVALENCY GUIDE: ALVIN COMMUNITY COLLEGE

The Texas State Office of Undergraduate Admissions makes the initial determination of course transferability based on the transferring institution's accreditation, the comparability of coursework and the applicability of that course work to a Texas State degree. This equivalency guide shows how courses from the two-year college transfer to Texas State and is updated annually. Additional copies of this guide are available on the Texas State Web site at <http://www.admissions.txstate.edu/future/transfer/equivalency-guides.html>

For further information, contact the Office of Undergraduate Admissions:

429 N Guadalupe
 San Marcos TX 78666

EVALUATION SYMBOLS

Numbered courses-Courses that have exact Texas State equivalents are assigned the four-digit number used by Texas State. In the Texas State numbering system, the first digit represents the level of the course, the second digit indicates the semester hours, and the third and fourth numbers are departmental identification codes.

ELNA (Elective credit non-advanced)-This designation indicates that the course is transferable, but Texas State does not offer an equivalent course. ELNA courses may be used for any general lower-division elective that is not course or discipline specific. ELNA courses from two-year colleges may not be used to satisfy advanced hour requirements. Students should contact their academic advisor to determine how these courses will apply toward their degree at Texas State.

ACT (Activity)-This designation is given for physical fitness and wellness activity courses.

NT (Non-transferable)-No credit is accepted for admission, grade point average or degree purposes.

T&V (Technical & Vocational)-Courses evaluated as T&V do not transfer and are not used for admission or grade point average purposes. Although normally not applicable toward a degree at Texas State, some T&V courses may be accepted in certain degree programs. Students may request their academic advisor review their course work.
